

The federal government under Justin Trudeau has launched a TWO WEEK “public consultation” on its proposal to drastically expand euthanasia practices in Canada.

Please take ten minutes out of your day to answer the two sets of questions that make up this "public consultation". While it may not reverse the destructive path that the government is on, it will send a strong message to our leaders that there are many thousands, if not millions of Canadians who do not support their terrible policies that make medicalized death a reality in Canada!

The Survey can be found at:

<https://www.justice.gc.ca/eng/cons/ad-am/index.html>

The Euthanasia Prevention Coalition has a very useful guide to help in responding to the survey found here:

<https://alexschadenberg.blogspot.com/2020/01/guide-to-answering-canadian-aid.html>

Please take the time to send a message for LIFE!
